### **Policy for Quick Turnaround Orders without Pre-Production Samples**

*No Sweat Specialties* requires our customers to sign this document in the event that an order is time sensitive and the customer wishes to forgo our pre-production sample process.

#### **Knit-In Orders**

Knit-In is often a preferred decorating method due to the way the logo is knit into the wristband or sock. Issues and restrictions to consider:

- Due to the fact that the artwork has to be converted to pixel format, the artwork will not look exactly like what was originally submitted. We make every effort to get as close as possible to the original artwork, but changes will occur.
- We are limited to thread colors for the logo. Please be aware that we will come as close as possible to the colors requested, but cannot guarantee an exact match.
- Logos and lettering need to be as big and bold as possible in order to convert the artwork as close as possible to the original.

We thank you for taking the time to read and understand the challenges we incur when producing custom orders. We hope this will also help you understand why the pre-production sample process is taken very serious and highly recommended.

**Your signature below indicates that you understand our decorating limitations and approve the order to move forward into production. *No Sweat Specialties* will not accept product returns that conform to paper proofs or verbal agreements to proceed with requested orders.**
